

Network Module with Digital I / O Korenix Jeti / O 6550

FEATURES

Network module with digital I / O Korenix JETI / O 6550
 Channels: 14/8
 Digital inputs: 14 pcs., Logic 0: 0 - 4 V, Logic 1: 5 - 30V
 Digital outputs: 8 pcs. Open collector, 5 - 40 V 250mA
 Isolation: Optical 2500 VRMS for analog and digital inputs and outputs for the power supply
 Magnetic 1500 V from the network interface for the power supply
 10/100 Mbit m / RJ45 their connector
 Operating temperature: - 25 ° C - 70 ° C
 Supports Modbus / TCP, OPC server, SNMP.
 Software included for configuration
 For DIN rail mounting
 Supply: 10 - 30 VDC via terminal block, Max 1.92 W
