

RFID-R60A

RFID reader to 125kHz cards. IP64. RS232 / RS485 / Wiegand 26. Relay output managed from PC. Access Control etc.

FEATURES

- RFID reader for RS232 / RS485 / Wiegand IP64
- Range up to 60cm
- Serial communication to / from PC
- Relay output (24VDC / 2A) Serial Enabled from PC
- Baud Rate : 9600, 8, n, 1
- Dim: 210 x 210 x 28 mm
- Extended temperature -10 - 60°C
- supply: DC 12V, 350mA

SPECIFICATIONS

Operating Temp.	:	-10°-60°C
Andet	:	Audio/ Visual Indication : Internal LED and Buzzer External buzzer control also available
Forsyning	:	5~13.5 volt regulated DC,350 mA . A linear 12 volt regulator is best used ,but the unit will work with a wide variety of supplied
Frekvens	:	125KHz ,ASK
Interface	:	Wiegand 26 bits MSR ABA Track2 RS232 RS485 (optional version)
Rækkevidde	:	Up to 60 cm with ISO card in ideal conditions
Dimensioner	:	210 x 210 x 28 mm
