

TSH206

1-wire temperature and humidity sensor, -20 - + 60 ° C, 10 - 90% RH, 2 x RJ11, max. 30 m, daisy-chain

FEATURES

- 1-wire communication - 2 x RJ11 connectors for daisy chain coupling.
- ± 3.0% relative humidity accuracy.
- 12 bit resolution for the moisture measurement.
- 14 bit resolution for temperature measurement.
- calibrated digital output.
- Eksellent long term stability.
- Each sensor has its own unique 64-bit serial number.
