Svensk Binär Teknik

Light, temperature and humidity sensor with RTU MODBUS / TCP, Ethernet, RS485, ceiling-mounting IP20. unit to Energy Management

FEATURES

The indoor light-gauge, temperature and humidity sensor 3 in 1

For energy optimization and building automation systems

Measuring range of illumination: 0 to 20,000 lux

Temperature Range: -20 to + 60 ° C

humidity Measuring range: 0 to 100% RH

Supports DCON and Modbus RTU / TCP protocols

Supports MQTT protocol Ethernet interface

With RS485 / RJ45 Ethernet communications interface

Relay output - 6 Amp @ 250VAC

Power supply: PoE and 10 - 48VDC, ca. 2 Watt

Operating temperature: 0 - + 75 ° C

web configuration and firmware update via Ethernet

Ceiling Mounting
