

## DC 5V / 7.5V / 9V / 12V Power Supply with UPS backup

### FEATURES

- Input voltage 95-265VAC
- Manual Select voltage: 5V / 7.5V / 9V / 12V
- Adapters for 3.5 x 1.35mm, 4.8 x 1.7mm, 5.5 x 2.5mm
- Main DC connector 5.5 x 2.1mm
- Digital with Microprocessor Control
- Battery Level, Battery Life Led Indicator
- Over Discharge, Overload, Short Circuit Protection, Over Charge, Surge Protection

## SPECIFICATIONS

|                 |   |                                                          |
|-----------------|---|----------------------------------------------------------|
| Operating Temp. | : | 0°C - 40°C                                               |
| Farve           | : | Black                                                    |
| Batteri         | : | Lithuam-Ion 18650 type Battery, 3.7V 2600mAh (medfølger) |
| Forsyning       | : | 95 to 265 VAC                                            |
| Luftfugtighed   | : | 5 to 95% RH(NO Condensation)                             |
| Stik            | : | C7/C8 AC power connector                                 |
| Udgangsspænding | : | 5VDC, 7.5VDC, 9VDC, 12VDC (12W max)                      |
| Weight          | : | 250g                                                     |
| Dimensioner     | : | 153 x 70 x 33mm                                          |
