

RFID868TAG10-512

Micro UHF RFID 865MHz Ceramic TAG against Metal, ISO18000-6C, EPC Gene 2, EPC 96bit TID 512bit, IP68 FEATURES

Ceramic UHF Take against metal

survive Temp: -40 - + 250 ° C Short-lived

can autoclaved several times operating temp: -40 - + 85 ° C

Alien Higgs-3 chip < Br> Objective: 10 x 5 x 3 mm

Weight: 0.8g

reading distance: Up to 3 meters (1 watt reader) suitable for location against metal - can give better

reading distance

read / write : 100,000 times Data Storage: Over 10 years

IP68
