

LC1020ACK-125KN

125kN (12.5ton) Comp/Tension load cell. 300% overload Safe. Very robust made of best materials.
Environmental compensated

FEATURES

- Top-class load cell - proven construction
- Available in weight classes from 1.1 - 223Kn (100kg - 22 ton)
- proprietary interface Temperature compensated strain Gauges
- Performance for 0.03%
- eccentric load compensated
- Low deflection
- 0.0008% / ° F (0.0015% / ° C) temp. Effect on output
- Barometric Compensation
- Shunt calibration
- E74 NIST trackable voltage and compression calibration (optional)
