

Svensk Binär Teknik

SPANEL-INV-H8K

8KW hybrid solar inverter (PV+battery), three-phase AC, combine solar generation, storage and backup. FEATURES

- 8kW inverter with battery connection option
- 3-phase AC output for loads and export to grid
- 2 MPPT inputs for better utilization/division of panel orientation
- Maximum DC input: 12 kW
- IP65 – suitable for outdoor installation
- Possibility of communication via Wi-Fi/DCI (requires additional module for this) and possibility of automatic control
- Integrated backup/UPS function (fast switchover in case of power failure)

Typical applications:

- Households and small commercial buildings requiring a 3-phase system
- Solar system with battery (Li-ion / LiFePO₄)
- Emergency power operation in the event of a mains failure on a separate output for backup of critical equipment, telephone system, alarm system, PC equipment
